PROFESSIONAL EXPERIENCE

Data Science Intern

05/2022 – 09/2022

1stop.ai

- Technologies Used: Python, Pandas, NumPy, Scikit-learn, Matplotlib
- Developed an end-to-end Question Answering (QA) model using the Facebook bAbI dataset.
- Implemented data preprocessing, vocabulary generation, sequence padding, and tokenization.
- Built a Memory-Network-inspired neural architecture using Keras, combining Embedding layers, LSTM encoders, attention mechanism (dot product), and softmax classification to predict correct answers from a given story context.
- Trained and evaluated the model with accuracy tracking and visualization.
- Enhanced understanding of deep learning model architecture design, and end-to-end ML workflows.

PROJECTS

Blog Management Web Application

Django, MySQL, Bootstrap

- Built a Blog Management Web Application using Django and MySQL.
- Performed functionality testing for authentication, profile management, commenting, bookmarking, and CRUD operations.
- Validated user workflows and identified issues during development and debugging phases.
- Implemented secure authentication and database integration while ensuring application reliability.

Customer Churn Prediction

Data Science, Machine Learning, Python

- Built a deep learning model achieving 80% accuracy using a dataset of 100,000+ customer records.
- Applied Random Forest, XGBoost, and Neural Networks for predictive modeling.
- Conducted A/B testing to validate churn reduction strategies, reducing churn by 12%.

To-Do-List

Python

- Developed a Python-based To-Do List application implementing CRUD operations.
- Tested task creation, update, deletion, and retrieval functionalities to ensure expected behavior.
- Debugged application issues and validated file handling operations.

EDUCATION

Software Development Course

2024 – Present | Remote

Scaler School of Technology

Bachelor Of Technology(B.Tech) - CSE

2019 – 2023 | Visakhapatnam, India

GITAM University

CGPA : 8.32

TECHNICAL SKILLS

Programming Languages

Python, SQL

Concepts

OOPs, SDLC, Quality Assurance, Data Structures and Algorithms

Development

Django, HTML, CSS

Software Testing

Manual Testing, Bug Identification, Debugging, Test Validation

Tools

MySQL, Git, VSCode, Postman, PyCharm

CERTIFICATES

- Microsoft Certified: Azure Fundamentals
- Technical Support Fundamentals(Google)
- Flask Essential Training
- Data Structures and Algorithms
